### CLARESHOLM LOCAL NEWS

Miss Mabel Barber is away for holiday.

Joe Taylor left on Wednesday for a month's visit in the east.

Born: to Mr. and Mrs. W. Griffin, on August 24th, a 10 pound daughter.

Mrs. Sid Lewis and family leave on Saturday to visit friends in the south.

Claude Amundsen has taken a position with the Pioneer Grain Company for the fall season.

Mrs. Maurice Wall returned on Thursday from Banff feeling much better for her holiday.

The little daughter of Mrs. Longman of Raymond has been seriously ill this week but is reported as improving.

Rev. Mitchell preached last Sunday at Drumheller. Next Sunday he expects to take the services at Purple Springs and Grassy Lake.

Mr. Powell recently sold his farm to the Dominion government. It is not yet known what use the Dominion government is intending to make of it.

The El-Ma-Ree Ladies, who are returning from the Waterton Lakes season, will give a confetti dance at Clareholm on their way through, Tuesday night, August 30th.

Mr. and Mrs. Hallett and Mrs. J. Dahl motored to Glacier Park, Montana, last Saturday and camped until Tuesday. On the return trip they went through the Mormon temple at Cardston.

R. K. Peck and family returned from their camping trip in the north country on Wednesday. They camped at a beautiful lake a few miles from Wainwright. Mr. Peck reports excellent crops in the Wainwright district. Harvesting commenced there last week.

Mrs. S. J. L. Scott is a pupil of Miroslav Weber, late director to the Royal Crown of Darmstadt, and also a pupil of Charles Chollat, gold medalist of the Paris Conservatoire. She has had a very long experience as a teacher of solo, ensemble and orchestral works, having taught for 13 years in the Edinburgh Violin School under the directorship of the late William Warfield. Mrs. Scott is a resuming violin teaching at Clareholm.

On Thursday the Provincial Police staged an inspection of the various premises where soft drinks are sold here. They found no contraband, the several dealers in soft drinks having nothing in stock stronger than two per cent.

Major G. H. Schoof returned from his lecture tour in California, Oregon and Washington and starts with his camping outfit for the Gap on Monday morning to patrol the mountain sheep and goat country, which lies between the forest ranger camp and British Columbia. He will also see that the fishery laws are enforced, since he is both game and fishery guardian. Many people have asked him how he could hold these two positions and he away three-fourths of the time on lecture tours. In reply to these questions he wishes to state that he has held the positions since 1917 and has not accepted a dollar for his services but does his work for the government free of charge in order to preserve big game and fish for clean sportsmen for many years to come.

At Pincher Creek fair on the 23rd inst. Ed Burton won the second prize in the farmers' saddle horse race (175 lbs up) and on the 24th inst. he easily won the relay race with his two relay horses and was second in the stake race. In the open saddle horse race (160 lbs up) Jiggs won (half mile) with Balsarroch Fox second ridden by J. K. Watt, and on the 24th in the half mile heats Charles C. which won at Clareholm took first money in last time (32 seconds) each heat with Jiggs making him gallop all the way in each heat and not being beaten by more than a length or so. Balsarroch Fox took third money in said half mile. Charles C. also won two pony races and the ladies race. The new grounds and track at Pincher Creek are favorably reported by the Clareholm people who attended. The bucking, steer riding, and roping were specially well managed and a high hill alongside the race track forms a natural grand stand.

### School Fair Dates

Grange, Sept. 13, Macleod Sept. 14, Pincher Creek Sept. 15, Cowley Sept. 16, Clareholm Sept. 20, Staveland Sept. 21, Parkland Sept. 22, Gayley Sept. 23, High River Sept. 27, Okotoks Sept. 28, Queenstown Sept. 30, Banville Oct. 1, Barons Oct. 4, Champion Oct. 5, Vulcan Oct. 6, Blackie Oct. 7.

(Continued)

Five minutes later, once more on the street, he was walking home with Benny. It was Benny who broke the long silence that had immediately fallen between them.

"Say, Mr. Smith, I'll bet you'll never be rich!"

Mr. Smith turned with a visible start.

"What? What? I'll never be—What do you mean, boy?"

Benny smiled cheerfully.

"Cause you said Aunt Jane what she asked the very first time. Why Aunt Jane never expects to get what she asks, pa. She sells him groceries in the store."

"But you said it right off, didn't you?"

"You said it right off, didn't you?"

"You said it right off, didn't you?"

"You said it right off, didn't you?"

"You said it right off, didn't you?"

## To Remove Bad Cold Medicine Not Necessary

The Balsamic Vapor of "Catarrhose" When Used Quickly Disperses Colds

Every breath you draw through Catarrhose Inhaler fills the whole breathing apparatus with pure balsamic vapors which colds at their very onset, and thus the head, throat, chest, and lungs are kept in a state of perfect health, and every trace of cold and Catarrhose disappears. It is so pleasant, such a safe remedy for winter use, that you can't afford to do without it. Get the dollar outfit, it has two months' supply, 50c trial size, 25c at all dealers or the Catarrhose Co., Montreal.

Then after, You Wanted to see her?

Yes, But it's not important at all. Another time, just as well.

Some questions—that is all.

Yes, I have heard about that, too.

But can't you wait? Mr. Blaisdell will soon be home.

I can go home. I have to go home.

(And you are—)

You don't mean "Poor Maggie!"

(And you are—)

Mr. Smith realize quite how they

He stumbled miserably, and she came to his rescue.

There was an odd something in her

Yes, and the home folks, and

He was groping for something—anything to say, when

And the little woman at his side

"Oh, Hattie, you came down!" she

(And she had a great deal to say)

He opened the screen door and stepped

on to the veranda. Here's Mr.

Blaisdell, Mr. Smith.

(To be continued)

## A Wireless Pioneer

Professor Fleming Invented Key to Wireless Telegraphy

The Royal Society of Arts has awarded the Albert Medal of the society for 1921 to Professor John Ambrose Fleming, M.A., D.Sc., for his discovery of the thermionic valve, which was the key to all modern wireless telegraphy and which made possible the valve can be made to produce wireless waves, to detect wireless waves, and to magnify them when detected.

## Taxes at Doorn

Ex-Kaiser Must Pay For Living In Holland

There is something pathetic in the All Highest fall or being forced into the role of tax dodger in the little town of Doorn where he has taken refuge. The authorities at Doorn assessed their distinguished visitor along with the other taxpayers of the town. He did not show any reticence in fixing the amount. The ex-Kaiser protested, "thereupon the calous burghers have replied in effect that if Wilhelm doesn't like the way the town is run he may go back where he came from. That puts it up to him in a rather nasty way. To go back where he came from would just be inadvisable. He would be a second time, and paying hateful high taxes too, and many of them have an ungrateful idea that if Wilhelm had not been on the loose they wouldn't have been killed from head to heel and compelled to spend most of their time working for tax collectors."

## An Old Locomotive

After Years of Inactivity 90-Year-Old Engine Stands Test

The Dr. Wm. Clinton, the first locomotive operated in New York state, is resting after celebrating its nineteenth birthday by drawing a train of 100 tons of the type in vogue in 1831. The test was given preparatory to a run to New York City. The engine chuffed and pulled out under the pressure of 75 pounds of steam as it exceeded the old-time speed limit of eight miles an hour. Although it shook and groaned after years of inactivity, officials of the New York Central said it stood the test well. Several short runs were made.

## To Help Famine Victims

In an effort to save money to be sent for the relief of the famine victims in China, over 150 Chinese students at the University of Chicago and Northwestern University have agreed to limit the cost of their food to 6 cents a day for the next three months. In addition, the men will abstain from candy and motion picture shows.

## Russia's Marriage Customs

Russia still has many odd and curious marriage customs. One is for the bride and bridegroom to race rapidly down the aisle as soon as the bridal procession enters the church, because of the belief that whichever places a foot on the cloth in front of the altar will be master in the household.

## Order-in-Council Makes Industry a Government Monopoly

The discovery that a highly-organized smuggling "ring" is in existence, dealing in beaver skins caught in British Columbia, has led to a drastic order-in-council at Victoria, whereby the beaver industry is practically made a Government monopoly, and any person found illegally in possession of beaver skins will be liable to six months imprisonment without the option of a fine. Dr. D. R. Biker, head of the Game Conservation board, declared at a meeting of that body that the board had conclusive proof of beaver "bootlegging," it being shown that no less than from 800 to 6,000 beaver skins had unlawfully left British Columbia for Alberta. These beavers had been illegally killed, illegally bought and illegally shipped out of British Columbia. It is stated that the Government will purchase market the 6,000 skins valued at \$100,000, now held in various caches by Italian traders.

## A Unique Flag

A United States flag has been made in Jamestown, N.Y., which is unique in that it was made of wool, sorted by a Yankee, secured by a Albanian, carried by an Italian, spun by a Swede, warped by a German, dyed by an Englishman, drawn by a Scotchman, woven by a Belgian, supervised by a Frenchman, inspected by a Yankee, dyed by a Turk, examined by an Irishman and dressed finally by a Pole.

## When Your Appetite Fails This Is What You Need

When your appetite fails, when you feel dizzy, when you're run down, stomach, flat-bellied, you need a real house cleaning with Dr. Hamilton's Pills. They tone up the liver, assist the stomach and improve digestion. The taste becomes aware of the food, and you never need to fast before. You'll look and feel a whole lot better after using Dr. Hamilton's Pills. Many folks used this fine old remedy and nothing else and kept in the pink of condition all the time. 25c at all dealers, or The Chattanooga Co., Montreal.

## The First Postcard

Postcards were introduced in the first place in Austria in 1869. A year later they were used in England. For half a century the postcard has become a popular institution, and its popularity has consistently increased. In 1872, two years after their introduction into England, no fewer than 76 million postcards passed through the post. Ten years later, in 1882, the figure had increased to 135 millions. Almost doubling that quantity were posted in 1892. By 1902 the figure had reached 419 millions, while in 1906 the 800 million mark was reached. When the letter rate was raised some time ago the postcard scored again, but now that the postcard rate is to be increased that of the letter rate of that particular country.

## Town in Quicksilver Mine

There is a quicksilver mine in Peru, 170 fathoms in circumference and 480 feet deep. In this profound abyss are streets, squares and a chapel, where religious worship is held.

## People Living In Stone Age Manner

Life is Monotonous for Inhabitants of Remotest Island

People who are still living in the manner of the Stone Age are found on Rennell Island, in the Solomon Islands. According to Dr. Northcote Clark, a missionary. Dr. Clark says there are only about 300 inhabitants, and because of their isolation, through lack of ships in anchorage, even their dialect has never been studied. The natives only had implements of stone and wood and weapons of stone and wood when Dr. Clark first visited the island. They lacked even such simple necessities as needles, thread, and anything made of iron. "The men are great fighters and wrestlers. Their throwing spears have points made of human leg and arm bones, and tipped with a bone splinter designed to break off in the wound," says Dr. Clark. "They seemed to feel keenly the monotony of their isolation and showed a settled melancholy, but their faces and the cadence of their voices. Their only sort of music, to which they dance, consists in the unending beating of a log." The teeth of flying foxes, which swarm in the caves on the island, seem to be the only form of currency known there.

## British Columbia Protects Beavers

Order-in-Council Makes Industry a Government Monopoly

The discovery that a highly-organized smuggling "ring" is in existence, dealing in beaver skins caught in British Columbia, has led to a drastic order-in-council at Victoria, whereby the beaver industry is practically made a Government monopoly, and any person found illegally in possession of beaver skins will be liable to six months imprisonment without the option of a fine. Dr. D. R. Biker, head of the Game Conservation board, declared at a meeting of that body that the board had conclusive proof of beaver "bootlegging," it being shown that no less than from 800 to 6,000 beaver skins had unlawfully left British Columbia for Alberta. These beavers had been illegally killed, illegally bought and illegally shipped out of British Columbia. It is stated that the Government will purchase market the 6,000 skins valued at \$100,000, now held in various caches by Italian traders.

## A Unique Flag

A United States flag has been made in Jamestown, N.Y., which is unique in that it was made of wool, sorted by a Yankee, secured by a Albanian, carried by an Italian, spun by a Swede, warped by a German, dyed by an Englishman, drawn by a Scotchman, woven by a Belgian, supervised by a Frenchman, inspected by a Yankee, dyed by a Turk, examined by an Irishman and dressed finally by a Pole.

## CHAPTER IV

In Prospect of Some Dates.

Mr. John Smith and his two trunks appeared at the door of his boarding place. Mrs. Anne Blaisdell welcomed him cordially. She wore a high-necked, long-sleeved gingham apron this time, which she neither removed nor apologized for—unless her cheerful or sad, mornings only find me in working trim, Mrs. Smith might be taken as an apology.

Millicent, her sleek, plump self, enveloped in a similar apron, was dusting his room as he entered. She nodded, absently, with a casual "Good-morning, Mr. Smith," as she continued at her work. She was placing of the two big trunks, which the shifting sun brought from her only a little less than a year from then, without speaking again, she left the room, as her mother entered.

"There!" Mrs. Blaisdell looked about her complacently. "With this couch-bed with its red cover and

## Clareholm Review-Advertiser

An Independent Weekly Newspaper  
P. M. KUROGLY, EditorSubscription Rates  
One year, in Canada \$2.00  
One year, in United States 2.50  
Single Copy 10c

The Review would call attention to the fact that it is contrary to law for boys under 16 or girls under 18 to drive automobiles. And it makes no difference if the parent or other grown up person is in the car at the time. This law was enacted for the public safety and must be observed. A number of violations have been noted of late. If persisted in the perpetrators are bound to get into trouble.

Although a half dozen notices have been posted in as many conspicuous places, and an item to the same effect has been running in the columns of this paper for the past two months, yet not one solitary application has been handed in to the town secretary-treasurer to have the name of the wife, husband, son, daughter, father or mother added to the "drivers' list" for this year. If your name does not appear on the list this year, do not blame the secretary. Under Section 79 of the Town Act the time for application expires on August 31st. After that date your name cannot legally be added.

## Dirigible Explodes, 44 Killed

The worst accident in the history of air navigation happened on August 26th in England when the giant dirigible ZR-2, the largest airship ever built, carrying 49 officers and men, collapsed and exploded. 44 of the 49 are reported killed. The ZR-2 had been built in England for the U. S. government and was just completing her final trial trip before sailing for the United States when the accident happened.

## TAX SALE

Sale of Lands in the Town of Clareholm, for Arrears of Taxes

Notice is hereby given that certain lands in the Town of Clareholm will be offered for sale for arrears of taxes and costs on October 12th, in the Council Rooms, commencing at 2 o'clock p.m.

Unless these arrears of taxes and costs be sooner paid, the Secretary-Treasurer will proceed to sell the lands at the time and place mentioned in this advertisement.

A full list of the said lands may be found in the issue of the Clareholm Review-Advertiser of August 26th, 1921.

Dated at Clareholm the 26th day of August, 1921.

You Save Every Way—

Quality maintains economy. No matter how much you pay "per gallon" for other lubricating oils you get more lubrication "per dollar" when you buy Imperial Polarine Motor Oils.

MORE mileage from every gallon of fuel and quart of oil; uninterrupted service from your car; slower depreciation; fewer repair bills and no lubrication trouble; just about sums up the savings and satisfaction enjoyed by users of Imperial Polarine Motor Oils.

The uniform high quality of Imperial Polarine Motor Oils, wherever you buy them, insures you more miles of correct motor lubrication for your dollar than you can obtain in any other way. Quality *does* maintain economy.

Our Chart of Recommendations shows the grade of Imperial Polarine Oils required to correctly lubricate your car. Use this grade exclusively and you will get the years of service and satisfaction which you have a right to expect from your car. Consult our Chart at your dealer's or write to 56 Church Street, Toronto, for a copy of "Automotive Lubrication," which contains the complete Chart and other useful information.

IMPERIAL OIL LIMITED  
Branches in all Cities

FOR A CLEAN EFFICIENT MOTOR.

No man Imperial Polarine Motor Oils will lubricate properly if mixed with dirt and oil. Your crank case should be thoroughly cleaned every thousand miles or less. Dealers displaying the sign on the left will clean your crank case in an expert and workman-like manner. Such dealers use Imperial Lubrication Oil, the modern scientific cleaning agent. Replace crank case service regularly and you will save hundreds of dollars every year.

## A Limitless Guarantee

A guarantee that operates at any time in the life of an Ames Holden "Auto-Shoe" protects you against any and every defect in material or workmanship that may come to light.

There is no time or mileage limit on this Ames Holden "Auto-Shoe" Guarantee. It serves as bedrock for all adjustments, which are made upon it—without fuss, quibble or red tape.

## Claresholm Local News

Mrs. Barber is at Raymond this week visiting her daughter Mrs. Longman.

Mr. and Mrs. Jas. Bissett of Lethbridge spent the week end with Mr. and Mrs. Sid Lewis.

Mr. G. Shearer manager of the Bank of Commerce, and family, returned from their extended visit to Ponoka on Wednesday last.

New wheat is now coming in to the elevators here. So far as reported, threshing returns are not showing yields above the estimates at time of cutting.

"Romance," starring Doris Keane, is booked for the Rex on Friday and Saturday, September 9-10. This picture comes with a great reputation. Don't miss seeing it.

Clareholm schools will reopen on Tuesday next, August 30th. There have been a number of changes in the teaching staff. Prof. Main and Prof. Sim are retained, and Miss Ferguson B.A. takes the place of Miss Gregory in the high school. The teachers in other grades are as follows: Miss Fair, 8th; Miss Moore, 6th; Miss Holmes, 5th; Miss Walsh, 4th; Miss McNabb, 3rd; Miss

Chisholm, 2nd; Miss Matson, primary.

### BUSINESS LOCALS.

For Sale—Oats in ear load lots 45c per bushel F.O.B. Clareholm—Geo. F. Beatty, Midnapore.

For Rent or Sale—Small cottage, with garage and stable, water, gas and light and stoves. Apply R. K. Peck.

For Sale—Half section farm, improved; practically all under cultivation; six room house and other buildings; good water; in sections 30 and 31, township 11, range 24. Price \$40.00 per acre. Terms, half cash, easy terms on balance. Apply to E. Simons, Clareholm.

### Mrs. S. J. P. Scott,

Head of the Violin Department, Mount Royal College, Conservatory of Music, Calgary, will resume teaching at Mrs. Sturgeon's on Friday, 2nd September. Pupils must enroll early as only a limited number can be taken.

Lord and Lady Byng and Captain Cook, R. N. R. Commander of S.S. "Empress of France" on arrival at Quebec.

### Home Ties That Hold

Boys and girls enjoy music. They love the lilt of the waltz and the rollicking jazz of the modern fox-trot. That's why the Columbia Grafonola with

## Columbia Records

is just another home-tie that puts a smile into life and joy into every heart.

### A few recordings you should hear:

Peggy O'Neil and The Last Waltz, Medley Waltzes, Prince's Dance Orchestra	46145, \$1.50
Alin' We Got Fun? Fox-Trot, Verkes' Javanilla Orchestra and Not So Long Ago, Fox-Trot, The Happy Six	46146, \$1.50
(a) Irish Washerwoman, (b) Wearing of the Green, (c) Rakes of Mallow and (d) Dance with a Gal, Hole in 'er Stocking, (e) Annie Laurie, (f) White Cockade, Fiddle Solo, (Medley of Jigs and Reels) Don Richardson	46147, \$1.50
Cherie and I'm Nobody's Baby, Fox-Trot, The Happy Six	46148, \$1.50
Where the Lazy Mississippi Flows and I Lost My Heart to You, Violin Solo, Saxophone Solo	46149, \$1.50
Do You Ever Think of Me? Tenor Solo, Ford Hughes and You Made Me Forget How to Cry, Tenor Solo, Charles Harrison	46150, \$1.50
Hawaiian Medley and Sweet Lullaby, Hawaiian Guitar Duets, Feters and Franchini	46151, \$1.50

## History Of Navigation Of Hudson Bay Waters For Over Two Centuries

For two hundred and twenty-two years, sailing ships bore cargoes to the Bay, but in 1892 the first steam-propelled vessel took in the York Factory supplies. This was the "Hercules" formerly a noted whaler in the Greenland seas. This vessel and her sister ships the "Hope" and the "Windward" were owned by the Greys of Peterhead, Scotland, a name that was a household word in the whaling industry for generations.

Captain Alex Grey, one of the three brothers, was in command of the "Hercules" on this first voyage for the H.B.C. The "Hercules" was a fine ship, like all vessels in the Polar trade, massive in her construction. Though steam propelled, she carried sails, and was square rigged.

The sailing ships continued operating to James Bay until 1906 when the "Discovery," Captain Scott's ship of Antarctic fame, came into the possession of the company and sailed for Charlton Island, James Bay, under Captain Grey.

From 1751, when the "Sea Horse" (Captain John Fowler) cast anchor in the Moose roads up to 1905, when the "Stork" commanded by Captain Norman Wreathley, arrived at Charlton Island, Moose Factory had its annual sailing ship. Such a record must be unique in the annals of shipping and scarcely bears testimony to the character and quality of the officers and crews. They were no fair-weather sailors.

It is worthy of note, too, that during the latter part of the 18th and early 19th centuries, when privateering was considered the sport of the day, the H.B.C. ships arrived with unflinching regularity at the Bay ports. No doubt it was due to the vigilance and vigilance of Nelson's frigates.

When the battle of Trafalgar was fought on October 1st, 1805, the "Prince of Wales" (Captain Harcourt) was near England, or perhaps had just arrived for she had sailed from Moose Factory on September 14th of that year.

In 1815, the year of the battle of Waterloo, two H.B. ships, the "Edgemoor" (Captain John Turner) and the "Hawlow" (Captain John Davidson) were sent out to Moose Factory. Both ships were wrecked on Straton Island in James Bay, arriving October 20th, presumably having run back from the straits on account of ice. In 1901, the H.B. "Pelican" came on the scene, replacing the "Erk" on the Labrador. York Factory and Churchill were established on the Labrador coast date back to the early years of the last century.

In 1860 when Donald Ross (Lord Strathcona) was supervising that part of the country, a steam auxiliary was constructed in England for work on the coast as well as in the bay. The ship was in commission for about 30 years when she was sold. But four years ago she was sold at auction on the coast of Newfoundland.

She was noted chiefly for her strength of construction, being close-planked and with double planking of teak and greenheart. In her bows there were eight feet of solid oak. As an ice puncher she was of the finest. Sandy Grey, her master, "blackened" against every obstacle that came his way—barring her. I mention this ship more particularly on account of its associations with Lord Strathcona. He made many trips from England to the Labrador coast on her. Even this ship must have been too slow for his active mind and temperament, for he was only happy when "every stitch of canvas was cranked on." She carried studding sails, and when Lord Strathcona was a passenger—as the stories go—there was no aid lost no matter how gale a squall might have been blowing—Extract from article by H. M. S. Cotter in "The Beaver."

**"Limerick's" Origin.**  
A correspondent has inquired the origin of the name "Limerick" as applied to a numerous series of enigmatic lines. According to the Standard Dictionary, "limericks" were usually extemporaneous compositions produced at convivial parties in Ireland by each individual in turn, while the entire party joined in singing a chorus in which was the word "Will you come up to Limerick?" from this it is supposed the name is derived.—New York Times.

General U. S. Grant was of Scotch ancestry, but all his family had been in America in all his branches for eight generations.

Metal screws have been made since 238 B.C.

W. N. O. 1879

### Torpedo Menaces

#### French Village

##### German Infernal Machine Still Embedded Deeply In Soil

An infernal machine menaces the village of Villahy, France. A message from Moscow states that it has been impossible up to the present to release the torpedo of 100 kilos which the Germans launched at Villahy last, and which, without exploding, became embedded in the soil to a depth of five metres, it is intended to make another attempt this time with an electrical apparatus, which will allow the workers to carry out the operation at a distance. "If it does not succeed the torpedo will be encased in a thick layer of concrete in order to safeguard against the possibility of a catastrophe, as if the torpedo exploded it would destroy the whole village."

### Playing the Game

#### British Can Be Depended On For Fairness

"I like the British," says Admiral Sims, "because you can be sure they will play the game."

Let us cite a little cricket incident. The British team, playing in Australia, England, the visitors appealed for a catch-out at the wicket, the question being whether the ball had touched the bat in passing. The umpire decided "not out." Evans, the batsman, played the next ball on his wicket. "A suspicious look," the newspapers say.

The inference is that he knew he had been out on the previous ball, and preferred not to go—not to benefit from an erroneous decision by the umpire. There is something in a game like that, and in men who will play it that way.—From the Toronto Star.

### Prospects Remote For Share of War Indemnity

#### Will Amount to Only About One-Sixth Of Our War Debt

From the first, Canadians have not expected much from German indemnities. Our share in the Allies' campaign was important and the cost to be met by the German indemnity. Among many claimants, the German indemnity could not begin to extinguish the full war expenditures of each one. The British Empire claimed only 21 per cent in the allocation. France about 55 per cent, and Belgium, Italy and lesser Allies the balance.

The fixing of Canada's share of the Empire's allotment at \$300,000,000 was based on our casualties, expenditures and the cost of our fighting. The Toronto Mail and Empire. It represents about 4.5 per cent of the Empire's total. The amount may seem small in perspective, but our losses were small, alongside those of the Motherland. Elaborate statistics show that England's share of the Empire's burden, in a military as well as a shipping way, and no part of the Empire is disposed to challenge them in any case, payment of German indemnities to the British Empire is a remote business. French and Belgian claims for reconstruction of devastated areas have to take precedence, and France also has dire need of payments from Germany to help her general war obligations. The \$300,000,000 is a gambler's prospect, since Germany's ability to pay the full three billions is very debatable.

Even if the \$300,000,000 were paid in a few years, it would amount to about one-sixth of our war debt. The amount is not large enough to cause any alteration whatever in Canada's fiscal outlook. The Canadian people have to finance their debt in full and they have much reason to be thankful that it is the smallest, per cent, among the leading units of the Empire.

**The Same Thing.**  
The drummer looked across the aisle. "The seat beside the pretty girl was vacant. Going over, he said, 'Is this seat engaged?'"

"No," said the girl, "but I am; so it won't do you any good."

Of a thousand persons, only one reaches the age of one hundred years, while only one couple in eleven thousand live to celebrate their diamond wedding.

Spending your money at home, thereby helping your own town and local merchants.

While gold-miners in South Africa won an eight-hour shift, the 20,000 natives work only five hours.

### WESTERN EDITORS

#### Prince is a Busy Man

##### Prince of Wales Leads a Busy Life Even in England.

"A man's house—the home of a man's man," is the description of York House, the Prince of Wales' of official residence, in a new biography of the Prince, by Miss G. Ivey Sanders, which was published on the Prince's 27th birthday.

The rooms which the Prince occupies are the same as those in which his father and mother, as Duke and Duchess of York, lived for some time during his childhood.

The two beautiful, but slightly furnished, reception rooms adjoining the simple dining room on the ground floor are now devoted almost entirely to his secretariat. The plain square entrance hall contains some interesting trophies of his active service, including the bass drum and two side-drums of his regiment and two huggies used by the Grenadier Guards in the Boer war.

Some fine old English tapestries relieve the bareness of the wide, white paneled staircase.

The Prince's own apartments overlooking Cleveland Road, are extremely modest and business-like and consist of two bedrooms, reception rooms and his own small sitting room. The latter is comfortably, but simply, furnished in old mahogany, of the Queen Anne design. A red velvet carpet is the dominating color of the carpet, upholstery and curtains. A massive fireplace, covered with papers, proclaims it to be the workroom of a very busy man.

### Markets Demand Hornless Cattle

#### Export Shippers Say the Practice is Imperative

"The practice of deborning cattle is almost universal so far as high grade beef steers are concerned. The majority of feeders and practically all the well-finished steers that appear on the market today have been deborned. This statement was officially made even before the war by the Canadian Department of Agriculture. Why should the same practice not be adopted as widely by Canadian farmers?"

Commission men and export shippers in both eastern and western provinces say the practice is imperative. They point to results in the States today where, between horned and deborned, there is often a considerable premium paid for the deborned. The damage done to the flesh of otherwise carefully prepared meat animals often surprises those who see the carcasses hung on the rails in the packing plants.

Yet the positive advantages of deborning to the producing farmer himself are so plain that it seems strange that the first move has had to be taken by those in the marketing end of the livestock industry—Instructors and Development Council of Canadian Meat Packers.

#### Growth of Friendly Feeling Between Canada and U.S.

It is thought likely that by the end of the year Washington will be minister from Canada numbered among the other envoys. The United States, in turn, will send a minister to Ottawa.

There were never two countries living side by side in such perfect peace, says the Buffalo Courier. Armed forces need patrol the border between them. There is not a blemish on the great lakes. For more than 100 years there has not been a single shot fired across the water.

## Ever Present Problem Of Dealing With Farm Help In The Western Provinces

The problem of farm help, which year after year in connection with the cultivation and harvesting of Western Canada's increasing crops is a matter of vital importance to the farmers, that it formed the basis of an interesting discussion at the Second Annual Conference of Western representatives of the Employment Service of Canada, held this spring at Regina. It was attended by representatives of the four western provinces, Director Bryce Stewart, Ottawa, and delegates from the United Farmers of Alberta, Saskatchewan and Manitoba.

Agriculture is a highly seasonal industry divided into two work periods of April and May, and the second period August, September and part of October. These two seasons are for the most part covered by the labor of commencing or closing of each season very considerably.

The demand for men in either season, and especially in the harvest season, fluctuates widely, giving to the harvest labor operations a distinctly spotty character.

Weather conditions are probably the greatest factor in causing fluctuations in the demand for men. Hot, dry weather causing grain to ripen quickly, will create a frantic demand for a large number of men, whereas a cool, wet, weather will result in hundreds of farmers refusing to accept men directed to their farms.

Varying degrees of weather over comparatively small areas will cause harvest in the various areas which should be done in succession, being all done at the same time. Harvest operations under even normal conditions never commence on the same date two years in succession. All fields, even in the same area, are not sown on the same date in the spring, thereby causing a difference in the date of ripening.

Rust, grasshoppers, hail, drought and rain are ever-present causes of fluctuations in the demand for harvest help, and many transient harvest laborers occur a surprisingly large number of jobs during the short seasons.

Added to the above uncontrollable causes of fluctuation must be considered the desire of farmers to complete harvest operations as early as possible. The fact that practically all the farmer's earnings are standing in his fields, his desire to complete the summer work as early as possible, and the fear of unfavorable fall weather, all tend to create a big demand for a few weeks, which demand then is met by the harvest laborers.

That the farmers and the unemployed should appreciate and realize the co-operation of the Employment Service was brought out at the Convention by the farmer delegates who, to further this co-operation, presented recommendations dealing with the following points:

The abolition of private labor bureaus; standardization of wages in different provinces; one standard of wages for five months commencing April 1st, and for eight months commencing April 1st; one standard for three months commencing September 1st.

A periodical survey to estimate labor requirements for any period for farmers' associations should be used for this purpose. Labor bureaus should make every effort to adjust labor supply to the requirements of seasonal employment within the province, by making convenient the transfer of labor from agriculture to winter industries and vice-versa.

In adopting a standard of wages, due consideration should be given to the experience of the applicant. It was suggested that \$40 to \$50 would be fair for the first five months and \$50 to \$60 for the eight months season. Rate of harvesting season to be adjusted at such time.

Acquisition of farm help by farmers' associations should be used for this purpose. Labor bureaus should make every effort to adjust labor supply to the requirements of seasonal employment within the province, by making convenient the transfer of labor from agriculture to winter industries and vice-versa.

## Canada's Timber Crops—A Great Possession

It is commonly agreed that Canada holds the largest and finest areas of spruce timber of any country in the world. At the same time the total forest resources of the Dominion are less than one-third of the forest resources held by the United States, and Siberia outranks all other countries in the vastness of its timber supplies. As regards the forests of Canada, there has come about a remarkable transformation in the public point of view during the past fifteen years. In the days when timber industries were only moderately important, and when the lack of accurate information concerning the forest resources fished upon the public mind a fictitious view as to the supposed "exhaustibility" of the storehouse of timber, it was not surprising that conservation policies should have been mostly of sentimental rather than practical value. Investigation has demonstrated that the forest area is very much more contracted than was first thought to be the case. It was also learned that, contrary to common belief, forests once burned down or devastated by the axe did not usually regenerate themselves except at an extremely long period. On the basis of this new information, the necessity of reaching the essential wood materials without which the most energetic business of the country cannot be undertaken.

Nevertheless, the enormous increase in the manufacture and use of paper for newspapers and printed matter, and the adaptability of pulp in a thousand of the every day necessities of mankind, the timber resources have come to be looked upon not as a barren to agricultural development but as an incredibly rich asset, capable of attracting industrial capital and providing employment for new population areas. Looking directly to the present of the country in which it is situated. As an excellent example of a forest area, which yesterday was a wilderness, can become in a few months the scene of a highly progressive industrial town, is pointed by the history of Ingersoll Falls in Northern Ontario. Only a few years ago the townsite was occupied by a few settlers and travelers. Today, by the establishment of pulp and paper industry, 2,500 men are given regular employment and the wage distribution each year is over \$2,000,000.

The term, "forest conservation," is frequently misinterpreted to indicate that the conservationist would place a Chinese wall about the standing timber and forest reserves of all wood-using industries. This, however, is the farthest from the aim of the true conservationist. The desire is not to prevent the utilization of timber, but to encourage such a system of forest fire protection, accompanied by scientific methods of timber cutting as should maintain the forest as a productive source for all time to come. In the past, the areas of over-cut were in many cases turned into permanent bogs. Increasing value of timber has resulted in enormous costs of establishing a new forest, and the necessity in the eyes of all progressive forest owners to maintain an operating one as to each acre growing successive timber crops.

(1) Canadian timber has the unique property of reproducing itself. From a scene taken from Vancouver Island, B.C. (2) Indiscriminate cutting followed by forest fires not only destroyed all the production value of this great forest area but erosion has now set in to complete the work of devastation. regular intervals. The forest must be "anchored" as security as the province of British Columbia, according to the Commission of Conservation, twenty-two times as much timber has been burned as was put out and for that reason quite useless to use by all the wood-using industries of that province. The three prairie provinces have been rubbed and a half million square miles can be made to grow timber. The weakness in Canada's national position as a great-growing country is the area of land that is not the security of national forest and the low average production of timber per acre. That is, the forest must be accepted as a useful service unless it is made to grow timber. The weakness in Canada's national position as a great-growing country is the area of land that is not the security of national forest and the low average production of timber per acre. ### 5000 Facts About Canada

The annual publication, "5000 Facts About Canada" is a gold mine of information about the Dominion that no Canadian can afford to be without, and its popularity is steadily growing. The 1921 edition is now out and may be had from leading newsdealers or from the Canadian Book Publishing Co., 588 Huron street, Toronto, for 30c per copy. Its

compiler, Frank Yeigh, is rendering a public service in this making available, in accessible and condensed form, under fifty chapter headings, ranging from Agriculture to the Yukon, the story of Canada in a nutshell. It is a revelation of the wonderful wealth and growth of the country, and is, as well, a fine advertisement of the Dominion. Governments, Banks, Boards of Trade and big financial and industrial concerns use hundreds of copies. It is moreover an excellent booklet to send to friends abroad, as a unique cyclopedia of Canada.

Do you know that you are paying about twice as much for your fire insurance as you have any need to? See Fraser & Peck and they will tell you about the Wawanesa farmers' mutual.

### PRIZE WINNERS AT THE CLARESHOLM EXHIBITION

**Cattle—Dairy Breeds**  
Shorthorns  
Bull 3 years old—1st, L. Shumacher.  
Bull 2 years old—1st, Roy Solby.  
Heifer 2 years old—1st, J. D. Layton.  
Cow 3 years old—1st, T. C. Thilston; 2nd, J. D. Larsen; 3rd, J. D. Larsen.  
Bull calf—1st and 2nd, J. D. Larsen.

**Ayrshires**  
Bull 3 years old—1st, M. O. Melom, Staveland.  
Heifer 2 years old—1st, A. Amundsen; 2nd, M. O. Melom; 3rd, A. Amundsen.  
Bull calf—1st, A. Amundsen; 2nd, M. O. Melom.  
Heifer calf—1st, A. Amundsen; 2nd, M. O. Melom.  
Bull and 3 females—1st, M. O. Melom.

**Holsteins**  
Bull 3 years old—1st, James Eady, Carmanagay.  
Heifer 2 years old—1st and 2nd, J. Eady.  
Yearling heifer—1st and 2nd, J. Eady.  
Cow 3 years old—1st and 2nd, J. Eady.  
Bull calf—1st and 2nd, J. Eady.  
Heifer calf—1st, J. Eady.  
Bull and 3 females—1st and 2nd, J. Eady.

**Jerseys**  
Bull 3 years old—A. M. Starr, Coldlake.  
Yearling bull—1st, A. M. Starr.  
Heifer 2 years old—1st, R. Stevenson.  
Yearling heifer—1st, A. M. Starr.  
Cow 3 years old—1st, A. M. Starr.  
Bull calf—1st, A. M. Starr.  
Heifer calf—1st and 2nd, A. M. Starr.  
Bull and 3 females—1st and 2nd, A. M. Starr.

**Grade Dairy Cattle**  
Milk cow—1st, Fred Anderson; 2nd, J. D. Larsen; 3rd, J. D. Larsen; 4th, R. Stevenson.  
Heifer 2 years old—1st, J. Lane; 2nd and 3rd, J. D. Larsen.  
Yearling heifer—1st, J. Eady; 2nd, D. Moffatt; 3rd, J. Eady.

**Dual Purpose**  
Cow 3 years old—1st, Mrs. A. Anderson; 2nd, T. C. Thilston.  
(To be continued)

### Foothills Lodge No. 13 I. O. O. F.

Meets every Monday evening at 8 o'clock in Odd Fellows' Hall  
Visiting Brethren Welcome  
D. I. REYNOLDS, N. G.  
A. J. HITCHCOCK, V. G.  
GEO. RINGROSE, R. S.

### G. W. V. A.

The Clareholm Branch of the Great War Veterans' Association hold regular meetings on the second Wednesday and fourth Saturday of each month. Our rooms are open to all comrades from 2 until 11 p.m. daily. Visiting Comrades always welcome.  
E. Atkinson, Pres.

### J. R. WATT, B.A.

Barister, Notary Public  
OFFICE—THIRD AVENUE  
Clareholm, Alberta

### Alberta Pacific Grain Co.

Limited  
Dealers in Grain  
Galt, Imperial and Steam Coal  
Barley, Chop and Flatted Oats  
Orders taken for Hay.

J. A. DICKSON, Agent.  
Phone: Office 49 Residence 44

### BANFF HOT SPRINGS HOTEL

Open summer and winter. A few steps from the Government Hot Springs. Good for rest or health. Make reservations by phone or writing.  
Holden Bros., Proprietors

### WE SPECIALIZE IN GOOD THINGS to Eat, Drink and Smoke

A full line of Groceries, Soft Drinks, Ice Cream, Tobaccos and Cigars.

### Bothwell & Ireton

Clareholm Alberta

### Dairy Farmers

The Central Creameries Ltd. of Calgary have opened up a cream buying station in the town of Clareholm, for the convenience of our many shippers from this point, where you may have your cream weighed, graded and tested and receive cash for same.

We also handle eggs and poultry.

Branch located in Milnes Block one door west of telephone office

### Central Creameries Ltd., Calgary

MRS. C. C. WATERSTREET, LOCAL AGENT.

### Volcanizing, Plumbing, Tinsmithing

To Gas Ovens—Retreading, Sectional Tubs, and general tire repairing. Agents for Arson Holden tires. Solve your 1921 tire trouble by letting us fit your car with a set of these tires.  
To Homeowners and Businessmen—Before deciding on your plumbing and heating system see us about cost and grade of material that goes into this important part of your home. Our twenty years practical experience places us in a position to give you helpful assistance in the selection of these. Job and repair work promptly attended to.  
1st Door West Wilton Hotel, Phone 177. COULTS BROS.
